# Shahad Turki Alshammari

*AI Engineer*

shahadturkiii00@gmail.com +966538107534 Saudi Arabia, Hail linkedin.com/in/shahad-turki
github.com/0Shahad0

## PROFILE

Artificial Intelligence graduate from the University of Hail with hands-on experience in developing AI-powered applications using Machine Learning, Deep Learning, and Large Language Models (LLMs). Completed a cooperative training program at JODAYN and contributed to AI and innovation projects. Skilled in Python, FastAPI, MySQL, and Neural Networks, with a strong interest in building intelligent systems that solve real-world problems.

## EDUCATION

**Bachelor of Artificial Intelligence,** *University of Hail* 2022 – 2026

**GPA: 3.939**/4.0 (Excellent)

## TECHNICAL SKILLS

**Backend Technologies**
- Python
- FastAPI
- REST APIs
- MySQL
- SQLAlchemy

**Artificial Intelligence**
- Machine Learning
- Deep Learning
- Large Language Models
- Natural Language Processing (NLP)
- Prompt Engineering

**Web Technologies**
- HTML
- CSS
- JavaScript

## EXPERIENCE

**JODAYN | AI Intern (Co-op)** 06/2025 – 01/2026 | Hail
- Completed a cooperative training program across the **Emerging Technologies** and **Innovation** sectors.
- Participated in design thinking sessions and innovation initiatives supporting AI-driven solutions.
- Developed **SkillRise**, an AI-powered training platform, as part of the Innovation sector.
- Delivered a workshop titled **"Accelerating Innovation"** for participants from both inside and outside the organization.

## PROJECTS

**CrisisTrainer – AI-Based Hospital Crisis Training System,** *Graduation Project*
Developed an AI-powered hospital crisis training platform that enables supervisors to generate AI-driven crisis scenarios, assign training sessions, evaluate employee performance, and provide automated AI feedback with interactive analytics dashboards.
**Technologies:** Python, FastAPI, SQLAlchemy, MySQL, LLM Integration, REST APIs, Chart.js

**SkillRise – AI-Powered Learning Platform,** *Co-op training Project*
Designed and developed an AI-powered training platform that enables supervisors to create technical tasks using AI or manually, evaluate trainee performance, and monitor skill development through interactive dashboards and AI-driven analytics.
**Technologies:** Python, FastAPI, MySQL, LLM Integration, HTML, CSS, JavaScript

**Beauty Product Recommendation System,** *Data Mining Project*
Developed a machine learning-based recommendation system for beauty products based on users' skin types. Applied data preprocessing, feature engineering, and trained multiple classification models to evaluate and recommend the most suitable products.
**Technologies:** Python, Scikit-learn, Random Forest, Naïve Bayes, KNN, Pandas, NumPy

**Arabic Dhikr Chatbot,** *NLP Project*
Developed an Arabic NLP chatbot that retrieves relevant Islamic *Azkar* using TF-IDF vectorization, Cosine Similarity, and text preprocessing techniques to understand user queries and return appropriate responses.
**Technologies:** Python, NLP, TF-IDF, Cosine Similarity, Scikit-learn

## CERTIFICATIONS

**Generative AI: Introduction and Applications** — IBM | **Foundation Models and Platforms** — IBM | **Prompt Engineering Basics** — IBM | **Python** — SATR | **Machine Learning** — HADAF

## AWARDS

**Excellence Award – Qiyas Readiness Tests,** *Education and Training Evaluation Commission (ETEC)*

## LANGUAGES

Arabic | English
